Marcopolo Plants

Liquidambar styraciflua

Liquidambar styraciflua

Common name: Redgum, Sweet Gum.

Height: 25-30M

Soil: well drained soil. Full sun to half shade.

Flowering: n/a.

Hardiness: [hardiness rating 1.](#)

Liquidambar styraciflua is a deciduous tree. The tree has large palmately lobbed leaves. In summer the leaves have a dark green glossy color, which turns into fiery red orange in autumn. A truly amazing autumn color! Also the bark tends to have a very nice structure.

This tree is native to North America.
